

PROGRAM March 6 (Fri), 2026

ROOM A

9:00-9:15 Opening Ceremony

9:15-10:00 Special Lecture moderator : Zenya Ito

SL 9:15-10:00 [30 min / Q&A 15 min]
Endoscopic Treatment for Intervertebral Disc Degeneration (IDD)
Gun Choi(Korea)

10:00-11:00 Lecture 1A1 moderator : Yukoh Ohara, Tolgay Satana

1A1-1 10:00-10:10
Full-endoscopic puncture and reduction of Tarlov cyst
Yukoh Ohara (Japan)

1A1-2 10:10-10:20
Endoscopic Extra-Foraminal Decompression for L5-S1 Isthmic Spondylolisthesis with Foraminal Stenosis
Keng-Chang Liu (Taiwan)

1A1-3 10:20-10:30
Advantages and risks monoportal spine endoscopy of thoracic degeneration
Akhror Yoqubov (Uzbekistan)

1A1-4 10:30-10:40
The Limits and pitfalls of Transforaminal endoscopic approach and advantages instead of interlaminar approaches. Brief review
Tolgay Satana (Turkey)

1A1-5 10:40-10:50
Trends in the Application of Full Endoscopy and Biportal Endoscopy: Comparative Indications for Each Technique
Javier Quillo Olvera (Mexico)

Q&A Session 10:50-11:00

11:00-11:15 Coffee Break

11:15-12:45 Luncheon Seminar 1 moderator : Motohide Shibayama

1LS-1 11:15-12:00 [30 min / Q&A 15 min]
Title Under Review
Koichi Sairyo (Japan)

1LS-2 12:00-12:45 [30 min / Q&A 15 min]
Ventral Decompressive Surgery in Whole Spine Using UBE
Son Sang Kyu (Korea)

12:45-13:00 Coffee Break

13:00-13:40 Video Surgery

moderator : Fujio Ito

1VS-1 13:00-13:15

Biportal endoscopic lumbar interbody fusion with 3D printed double cage: Surgical video

Ju Eun Kim (Korea)

1VS-2 13:15-13:30

The TEXY Method (T-Shaped Dual Expandable Cage with Y-Slider):

A Novel Endoscopic Technique for Facet-Preserved KLIF and Facet-Resected TLIF

Seiji Yamaya (Japan)

Q&A Session 13:30-13:40

13:40-14:55 Lecture 1A2

moderator : Christian Morgenstern, Kanji Sasaki

1A2-1 13:40-13:50

Hybrid Endoscopic TLIF: A Novel and Contemporary Approach to Minimally Invasive Lumbar Fusion

Wu Pang Hung (Singapore)

1A2-2 13:50-14:00

Hybrid Endoscopic TLIF ;easy way to do(technique and tactics)

Woraphot Wichan (Thailand)

1A2-3 14:00-14:10

Minimally invasive deformity correction with ALIF, OLIF and endoscopic TLIF

Christian Morgenstern (Spain)

1A2-4 14:10-14:20

Current Evidence and Limitation of Biportal Endoscopic Transforaminal Lumbar Interbody Fusion

Hyun Jin Park (Korea)

1A2-5 14:20-14:30

Preoperative and Intraoperative Support for Endoscopic Lumbar Interbody Fusion Using Three-Dimensional Imaging Technologies

Kanji Sasaki (Japan)

1A2-6 14:30-14:40

Title Under Review

Sumito Shimizu (Japan)

Q&A Session 14:40-14:55

14:55-15:10 Coffee Break

15:10-16:25 Lecture 1A3

moderator : Shisheng He, Son Sang kyu

1A3-1 15:10-15:20

Current Application and Innovations in Spinal Endoscopy for Thoracolumbar Surgery: Experience and Insights from a Tertiary Hospital in Southwest China

Guangzhou Li (China)

1A3-2 15:20-15:30

Principles and clinical applications of the Single-Port Dual-Access Endoscopic Spine Surgery (UBD)

Shisheng He (China)

1A3-3 15:30-15:40

Optimizing irrigation and improving surgical operability in UBE: Technical note and preliminary results of new guiding device

Shu Nakamura (Japan)

1A3-4 15:40-15:50

Fluid dynamics and ICP management in UBE

Son Sang kyu (Korea)

1A3-5 15:50-16:00

The Role of UBE in Thoracic Ossified Ligamentum Flavum (TOLF)

Nantawat Uttamo (Thailand)

1A3-6 16:00-16:10

Title Under Review

Malcolm Pestonji (India)

Q&A Session 16:10-16:25

16:25-17:25 Lecture 1A4

moderator : Masataka Sakane, Pornpavit Sriphirom

1A4-1 16:25-16:35

Spinal Endoscopy: The Orphaned Innovation - International Adoption & Implementation

Kai-Uwe Lewandrowski (USA) **【Pre-recorded Video】**

1A4-2 16:35-16:45

Endoscopic spinal surgery

Joachim Oertel (Germany)

1A4-3 16:45-16:55

Three Cases of Intermittent Sleep Disturbance Due to L2/3 Instability

Masataka Sakane (Japan)

1A4-4 16:55-17:05

Endoscopic Management in Multi-level

Pornpavit Sriphirom (Thailand)

1A4-5 17:05-17:15

The Use of Endoscopy in Pain Management Procedures

Tunç Koç (Turkey)

Q&A Session 17:15-17:25

ROOM B

10:00-11:00 Lecture 1B1

moderator : Matee Phakawech, Aloysius Bambang Darwono

1B1-1 10:00-10:10

Endoscopic lumbar fusion : current update and my preference technique

Saran Pairuchvej (Thailand)

1B1-2 10:10-10:20

Endoscopic Approaches for Foreign Body Removal from the Spine

Shomansur Shatursunov (Uzbekistan)

1B1-3 10:20-10:30

Endoscopic Pars repair with percutaneous smiley rod technique

Matee Phakawech (Thailand)

1B1-4 10:30-11:40

Multi-level Lumbar Stenosis: UBE Decomp only vs. MIS Fusion (OLIF & TLIF)

Jeong-Yoon Park (Korea)

1B1-5 10:40-10:50

Endoscopic techniques for releasing the locked Facet joint will correct multilevel spine Degenerative Deformity.

Aloysius Bambang Darwono (Indonesia)

Q&A Session 10:50-11:00

13:40-14:55 Lecture 1B2

moderator : Man kyu Park, Zenya Ito

1B2-1 13:40-13:50

Pedicle-Guided En-Bloc Resection of Medial SAP: The Landmark for Complete Decompression in PECF

Alex lu (Taiwan)

1B2-2 13:50-14:00

endoscopic surgery in cranio vertebral junction anamolies

Saidileep Viswanadha (India)

1B2-3 14:00-14:10

Posterior Cervical Decompression via Unilateral BITUBULAR Endoscopy with the En Bloc Butterfly Technique: A Preliminary Report.

Lee Cheng-Ying (Taiwan)

1B2-4 14:10-14:20

Cervical Laminoplasty with Unilateral Biportal Endoscopy :Practical Surgical Tips and Advantages

Man kyu Park (Korea)

1B2-5 14:20-14:30

Comparison of endoscopic laminectomy for cervical canal stenosis

Zenya Ito (Japan)

1B2-6 14:30-14:40

Safety-First Full-Endoscopic Cervical Spine Surgery: Operating Room Setup, Water Management, and Cervical Nerve Root Anatomy

Withawin Kesornsak (Thailand)

Q&A Session 14:40-14:55

15:10-16:25 Lecture 1B3

moderator : Wataru Narita, Jun Ho Lee

1B3-1 15:10-15:20

Posterior Endoscopic Cervical Decompression (Foraminotomy and/or Discectomy): A Motion-Preserving, Minimally Invasive Approach

Cheol-Wung Park (Korea)

1B3-2 15:20-15:30

Rapid and Precise Cervical Laminoplasty via a 3-cm Incision: Operative Technique and Outcomes of 300 Consecutive Cases

Wataru Narita (Japan)

1B3-3 15:30-15:40

Endoscopic versus posterior foraminotomy for cervical radiculopathy – A meta-analysis and review of the existing publication.

Jun Ho Lee (Korea)

1B3-4 15:40-15:50

CE ULBD: Cervical, uniportal spinoscopic, unilateral laminotomy bilateral decompression for myelopathic cervical pathology

Hyeun Sung Kim (Korea)

1B3-5 15:50-16:00

Title Under Review

Kei Miyamoto (Japan) **【Pre-recorded Video】**

Q&A Session 16:00-16:10

PROGRAM March 7 (Sat), 2026

ROOM A

9:00-10:00 Lecture 2A1 moderator : Daichi Kawamura, Motohide Shibayama

2A1-1 9:10-9:20

PSLD in Dealing with Facet Cysts in Lumbar Spine.

Lav Kush Pandey (India)

2A1-1 9:20-9:30

Total en bloc spondylectomy (TES) for malignant or aggressive benign spine tumors

Hideki Murakami (Japan)

2A1-3 9:30-9:40

Impact of Anesthesia Type on Surgical Outcomes of Full-Endoscopic Lumbar Foraminoplasty for Foraminal Stenosis

Daichi Kawamura (Japan)

2A1-4 9:00-9:10

New generation of MED

Motohide Shibayama (Japan)

2A1-5 9:40-9:50

A Comparative Study of Clinical Outcomes Between Percutaneous Endoscopic Posterior Cervical Foraminotomy and Micro endoscopic Foraminotomy in the Treatment of Cervical Radiculopathy Caused by Foraminal Stenosis and/or Disc Herniation

Kenzo Shimizu (Japan)

Q&A Session 9:50-10:00

10:00-11:00 Lecture 2A2 moderator : Kenyu Ito, Dong Young Park

2A2-1 10:00-10:10

A Paradigm Shift in Spinal Fusion Surgery— Precision Approaches to Critical Anatomical Regions Enabled by FESS and Navigation —

Yoshinori Kyoh (Japan)

2A2-2 10:10-10:20

Navigated UBE-ELIF

Kenyu Ito (Japan)

2A2-3 10:20-10:30

Efficacy Analysis of Unilateral Biportal Endoscopy Assisted by O-Arm Navigation in the Treatment of Lumbar Spinal Stenosis

Wei Xu (China)

2A2-4 10:30-10:40

The Application of Intraoperative Navigation and Augmented Reality in Biportal Endoscopic Spine Surgery: The State of the Art

Dong Young Park (USA)

2A2-5 10:40-10:50

Title Under Review

Keiji Nagata (Japan)

Q&A Session 10:50-11:00

11:00-11:15 Coffee Break

11:15-12:45 Luncheon Seminar 2

moderator : Kenyu Ito

2LS-1 11:15-12:00 [30 min / Q&A 15 min]

Title Under Review

Kang Taek Lim (Korea)

2LS-2 12:00-12:45 [30 min / Q&A 15 min]

Optimizing Biportal Endoscopic Transforaminal Lumbar Interbody Fusion (BETLIF) -Technical Pearls and Case-Based Strategie

Jwo-Luen Pao (Taiwan)

12:45-13:00 Coffee Break

13:00-14:00 Lecture 2A3

moderator : Fujio Ito, Elmer Jose Arevalo Meceda

2A3-1 13:00-13:10

Initiatives for regenerative spine medicine

Fujio Ito (Japan)

2A3-2 13:10-13:20

The Future of Endoscopic Spine Surgery in the U.S.

Jeffrey Roh (USA)

2A3-3 13:20-13:30

Endoscopic Surgery in Spinal Tumors from Craniocervical to Sacrum

Elmer Jose Arevalo Meceda (Philippine)

2A3-4 13:30-13:40

Truths of Myogelosis: The North-Pole Geomagnetism from the South Hardens Magneto-Receptive Muscles and Causes Pain

Shoichi Kokubun (Japan)

2A3-5 13:40-13:50

Posterior-Only Approach for the Correction of Severe Post-tubercular Kyphosis

Muhammad Tariq Sohail (Pakistan)

2A3-6 13:50-14:00

What's "0-1 Sign"? – A New Landmark for Cervical Nerve Visualization by Ultrasound

Yuyu Ishimoto (Japan)

Q&A Session 14:00-14:15

14:20- Closing Ceremony

ROOM B

9:00-10:00 Lecture 2B1

moderator : Kuniyoshi Tsuchiya, Yi Hung Huang

2B1-1 9:00-9:10

Initial Experience with Navigation-Assisted UBE-ULBD for Lumbar Spinal Stenosis: Technical Contributions and Early Surgical Insights

Cigdem Mumcu (Turkey)

2B1-2 9:10-9:20

Full-workflow master–slave robotic spine endoscopy for percutaneous endoscopic transforaminal discectomy: a case series and technical overview

Lianlei Wang (China)

2B1-3 9:20-9:30

The utility of real time monitoring during endoscopic lumbar interbody fusion by a unique preregistered probe and a burr adapted by the universal registered frame: comparison of Point and Brainlab navigation system

Yi Hung Huang (Taiwan)

2B1-4 9:30-9:40

The robotic advantage: Unlocking new potential in Multi-level MIS spinal fusion

Jacob Oh Yoong Leong (Singapore)

2B1-5 9:40-9:50

Title Under Review

Tarik Yazar (Turkey)

Q&A Session 9:50-10:00

10:00-11:00 Lecture 2B2

moderator : Yasushi Shin, Kazuhiko Fujita

2B2-1 10:00-10:10

Endoscopic Spine Surgery: Surgical Management and Technical Considerations of UBE and FESS

Yasushi Shin (Japan)

2B2-2 10:10-10:20

non dengenrative indications of endoscopic spine surgery

Saidileep Viswanadha (India)

2B2-3 10:20-10:30

Unilateral biportal endoscopic decompression for far-out syndrome: surgical technique and practical considerations

Kazuhiro Yoshimura (Japan)

2B2-4 10:30-10:40

Title Under Review

Kazuhiko Fujita (Japan)

2B2-5 10:40-10:50

Title Under Review

Ayhan Cömert (Turkey)

Q&A Session 10:50-11:00

13:00-14:00 Lecture 2B3

moderator : Jin Hwa Eum, Kuniyoshi Tsuchiya

2B3-1 13:00-13:10

Biportal transforaminal approach; My experiences with case series and future direction

Dookyung Son (Korea)

2B3-2 13:10-13:20

Preliminary report : One year experience of modified FESS(Full Endoscopic Spine Surgery) with Uscope

Jin Hwa Eum (Korea)

2B3-3 13:20-13:30

How to maximize safety and efficiency for decompression surgery with single portal FESS procedure

Kuniyoshi Tsuchiya (Japan)

2B3-4 13:30-13:40

Title Under Review

Yuichi Kondo (Japan)

2B3-5 13:40-13:50

Title Under Review

Yasushi Fujiwara (Japan)

Q&A Session 14:00-14:15
